

## **EXECUTIVE SUMMARY**

---

This document is the integration report of the Core Release (CREL).

The CREL is the fifth milestone of the IT2Rail project and is the release of the Core functions.

This document describes the test campaign strategy used for the CREL integration to better understand the motivations behind all the test cases.

Then, it details all the test cases for this campaign.

Finally, it gives the results for the final run of the test campaign.
